REMARKS.

In presenting this our annual report of the schools of our town we feel thankful that matters are looking so favorably. We have now a good school building, yet several improvements are necessary for the comfort and convenience of teachers and scholars. Those two rooms on the right and left of the front door need new floors, and also the High school room ; and the Second Intermediate room needs new seats. Should those improvements be made it would leave matters in much better condition for good service. Our heating apparatus is doing good work. During some of the coldest days it has been a little colder than necessary a very few mornings ; those however have been very few ; on the whole it works well and with some extra tons of coal and a little extra early labor the building can be made warm during the coldest weather. We have put three outside windows on the High school room which helps to keep out a great deal of cold.

Our schools have been reasonably prosperous the past year. Our corps of teachers are not surpassed in the county, and the class which is soon to graduate will, in scholarship, favorably compare with, if not exceed, any former class. We say this without fear of successful contradiction, and we are also aware of practical lessons being in some cases made more practical than formerly to the pupils. Should the schools be more frequently visited by parents and citizens, so that they might understand just how the work is going on, it would be much better for all concerned, for then we would have a good idea from our own experience, and not have to listen to outside remarks for our information.

Financially, we have done the best we could with the means furnished us. All new bills are paid where there is any liability, except in the case of Mr. Fuller for repairs upon the furnace about which there is a question as to liability, and not wishing to take the responsibility of settlement, there being no appropriation for such a repair, we decided to leave it to the district at the coming annual meeting. The full amount of Mr. Fuller's bill, as presented, is \$ 87.50, \$81.80 of which was upon furnace repairs, the balance being an undisputed claim. The foregoing account shows the full financial condition, except Mr. Fuller's bill above mentioned, and gives also the full amount of indebtedness, which we have been fortunate enough to place at the 4 per cent. voted by the district and which is mostly where it can be paid at our convenience.

THOMAS GIFFORD,	} School Board.
A. S. TWITCHELL.	

REPORT OF LIBRARY TRUSTEES.

During the year an increasing demand for library privileges has been manifest. From seventy to ninety volumes are usually taken out each opening day. Two hundred and eight new cards have been issued during the year, so there are now four hundred and fifty-five takers of books. Two hundred and thirteen new books have been added since our last report, and additional volumes are engaged and will soon be placed upon the shelves. An additional case will be required soon. If the two hundred or more volumes, now in the readers hands, were returned, our present shelf room would be inadequate.

We congratulate the town upon the good beginning toward a valuable and progressive town library, and bespeak the cordial support of all good citizens. We recommend the same appropriation as last year, at least \$300.

We desire to call attention to the want of care shown, in handling books, by some of the younger readers. Many books need rebinding, and several are torn and mutilated. The books are provided to be read, and not to be thrown carelessly about. Parents should see that their children use the books carefully. Whatever money is expended in repairing and keeping in condition our present stock of books decreases our means for buying new volumes. Each careless reader is thus taking from his or her own opportunities. We trust we may never have occasion again to call attention to this matter. •

BOOKS RECEIVED.

Books listed March 1, 1896,	472 vols.
“ donated during past year,	24
“ purchased “ “ “	189
